Residents will still have access to their apartments or homes, and parking will be prohibited as marked by “Emergency No Parking” signs.

The lane and sidewalk closure is necessary to complete the DC Power Line Undergrounding (DC PLUG) initiative’s Feeder 14758 project for conduit installation, sidewalk and greenspace restoration. The DC PLUG initiative is a partnership between the DDOT and Pepco to improve the resiliency and reliability of the District of Columbia electric system by placing select systems underground. Feeders are primary distribution power lines that provide services to approximately 1,100 residents within a specific neighborhood.
