## **RE: Important Notice Regarding Roadway Restoration for DC PLUG Feeder 15009**

Dear Resident,

We would like to inform you that the District of Columbia Powerlines Underground (DC PLUG) Initiative's Feeder 15009 is in the final stages of civil construction, and our dedicated contractors have begun the roadway restoration in your neighborhood. They are working arduously to complete the roadway restoration (milling and paving) in **5 days** (weather permitting).

**Restoration will start on January 8, and continue to January 13, 2024, in the 600-800 blocks of Dhalia Street between Piney Branch Road and 9<sup>th</sup> Street, NW. Construction hours are Monday through Saturday between 7:00 am to 5:00 pm.**

We know that construction can be inconvenient and telling residents that we may need extra time can be frustrating. Rest assured the contractor is working to ensure that the completed roadway restoration is done with accuracy and safety. During the period of roadway restoration, we kindly request your cooperation in observing the temporary prohibition of street parking. Please adhere to the No Parking signs posted in the affected areas.

We appreciate your patience and understanding as we progress toward creating a more reliable and resilient District of Columbia.

Warm regards,

The DC PLUG Team

**Ann Walters**
