

# Feeder 15166

September 18, 2024

**RE: Important Notice of Restoration from Unit Block, 200 and 500 blocks of Malcolm X Avenue, SE**

Dear Resident(s),

We're informing you that the District of Columbia Powerlines Underground (DC PLUG) Initiative's Feeder 15166 is nearing the completion of its civil construction phase. Consequently, our dedicated contractors will soon begin milling and paving restoration work in your neighborhood.

Milling and paving restoration work is scheduled to begin on September 24, 2024, and continue until September 28, 2024, weather permitting. Construction will take place Monday through Saturday, from 7:00 am to 7:00 pm.

We kindly ask for your cooperation in avoiding street parking in the affected areas. We understand this may cause some inconvenience, but relocating vehicles promptly will help us complete the work more efficiently. Please adhere to the No Parking signs. If the weather allows, this phase of restoration is expected to take about four (4) workdays.

We appreciate your patience and understanding as we work to enhance the reliability and resilience of the District of Columbia's infrastructure.

Warm regards,

**Ann Walters**

DC PLUG Community Outreach Coordinator
