RE: Important Notice Regarding Roadway Restoration for DC PLUG Feeder 14008

Dear Resident,

We want to inform you that the District of Columbia Powerlines Underground (DC PLUG) Initiative's Feeder 14008 is in the final stages of civil construction. As a result, our dedicated contractors will be commencing roadway restoration in your neighborhood.

Milling and paving restoration will take place from June 10 to 21, 2024, on the 1300, 1400, and 1500 blocks of Downing Street, NE, as well as the 1300 block of Bryant Street, NE, between Montana Avenue, NE, and Brentwood Road, NE. Construction hours are Monday through Friday, from 7:00 am to 5:00 pm.

During the restoration period, we kindly request your cooperation in adhering to the temporary prohibition of street parking. Please follow the No Parking signs posted in the affected areas. **Failure to comply with these signs may result in your vehicle being ticketed and towed.** Weather permitting, the milling and paving restoration phase is expected to take approximately twelve days.

We appreciate your patience and understanding as we progress toward creating a more reliable and resilient District of Columbia.

Warm regards,

The DC PLUG Team

Ann Walters
